VERDICT: SAFE RISK

THREAT INTELLIGENCE FUSION

Source	Finding	Status
ChatSecOps AI	Behavioral Risk Score: 0.0%	SAFE
VirusTotal	2 security vendors flagged	MALICIOUS
AbuseIPDB	No IP Address Resolved	SKIPPED
AlienVault OTX	No data / Error	N/A
Shodan	No data available	N/A

AI ANALYSIS & REASONING

Verdict: The domain eicar.org is assessed as benign but intentionally designed to trigger antivirus software for testing purposes.

Evidence: VirusTotal shows a minimal 2/91 vendor flags, which is consistent with its role as the official host for the EICAR test file - a harmless file used to verify antivirus functionality. The lack of other threat intelligence data further supports its non-malicious nature.

Recommended Action: No immediate action is required beyond informing the user of the domain's purpose. Ensure endpoint security solutions are properly configured to detect the EICAR test file, as its detection confirms their operational status.
